## STATE TREASURER RECEIVES DEBT MANAGEMENT AWARD

(Carson City, Nevada) – The national State Debt Management Network (SDMN) has honored State Treasurer Brian K. Krolicki with the Tanya Gritz Award for Excellence in Public Finance. SDMN is a professional organization, comprised of managers and issuers of state debt, which provides information and oversight on national public debt matters.

Finance officials in both the private and public sectors are eligible for the Tanya Gritz Award, which was established to recognize individuals who exemplify standards of excellence in public finance. In receiving the award, SDMN and its members lauded Treasurer Krolicki for his significant contributions to debt issuance and management. During his tenure, Treasurer Krolicki has consistently saved the State money through the development of innovative programs. In addition, Nevada obtained its first credit upgrade during Treasurer Krolicki's six years in office, which reduces the amount of interest that must be paid on bond issuances.

"Sound debt management is critical to Nevada's continued economic health. Our record pace of growth has demanded that Nevada's debt practices be both prudent and cutting edge, and I'm honored that my colleagues in municipal finance have taken notice," said Treasurer Krolicki.
